Geochemically distinct oil families in the onshore and offshore Santa Maria basins, California
K. E. Peters, P. G. Lillis, T. D. Lorenson, and J. E. Zumberge ........................................... 243

Breakthrough pressure and permeability in partially water-saturated shales using methane–carbon dioxide gas mixtures: An experimental study of Carboniferous shales from the eastern Qaidam Basin, China
Cheng Zhang and Qingchun Yu .............................................................. 273

Regional transect across the western Caribbean Sea based on integration of geologic, seismic reflection, gravity, and magnetic data
Javier Sanchez, Paul Mann, Luis Carlos Carvajal-Arenas, and Rocío Bernal-Olaya .................. 303

Mechanism of hydrocarbon accumulation and enrichment of tuffaceous tight oil with separate reservoir and source rock: A case study of tuff reservoir from the Permian Tiaohu Formation in the Santanghu Basin, northwest China
Jian Ma, Zhilong Huang, and Tianjun Li ................................................ 345

Origin of helium and nitrogen in the Panhandle–Hugoton field of Texas, Oklahoma, and Kansas, United States
Alton Brown ..................................................................................... 369

Lithofacies and depositional setting of a highly prospective lacustrine shale oil succession from the Upper Cretaceous Qingshankou Formation in the Gulou sag, northern Songliao Basin, northeast China
Bo Liu, Haoli Wang, Xiaofei Fu, Yunfeng Bai, Longhui Bai, Mengcheng Jia, and Bo He ........ 405

Statistical analysis of forward stratigraphic models in complex salt provinces: The central Scotian Basin case study
N. Hawie, E. Marfisi, F. Saint-Ange, and A. W. A. MacDonald ............................................ 433

Anatomy of a lacustrine stratigraphic sequence within the fourth member of the Eocene Shahejie Formation along the steep margin of the Dongying depression, eastern China
Zhixin Li, Wan Yang, Yongshi Wang, Liqiang Zhang, Hongmei Luo, Shuhui Liu, Likuan Zhang, and Xiaorong Luo ............................................................... 469

Climatic and tectonic controls of lacustrine hyperpycnite origination in the Late Triassic Ordos Basin, central China: Implications for unconventional petroleum development: Discussion
G. Shanmugam ..................................................................................... 505

Climatic and tectonic controls of lacustrine hyperpycnite origination in the Late Triassic Ordos Basin, central China: Implications for unconventional petroleum development: Reply
Rencho Yang, Zhijin Jin, A. J. (Tom) van Loon, Zuozhen Han, and Aiping Fan .................. 511

ACKNOWLEDGMENTS—AAPG thanks the AAPG Foundation for financial support of this issue of the Bulletin.

The AAPG Editor thanks the following reviewers for their work on papers in this issue: Irene Arango, Caroline Burberry, Zhonghong Chen, Youliang Feng, Irina Filina, Eric Guiltinan, Michael Hsieh, Chenglin Jiu, Alan Kornacki, Yingjie Li, Zongxing Li, Dawie Lv, Bin Min, Alexander Lewis Peace, Martin Perlmutter, David Piper, Richard Stanley, Michael Sweet, Jinqiang Tian, Victor Vilarrasa, Hua Wang, Tongwei Zhang, and Shifa Zhu.
