Thermomechanical origin of regional fracture systems
Joseph M. English .................................................. 1597
Carbonate rock characterization and modeling: Capillary pressure and permeability in multimodal rocks—A look beyond sample specific heterogeneity
Iulian N. Hulea and Chris A. Nicholls .......................... 1627

A geologic deconstruction of one of the world’s largest natural accumulations of CO₂, Moxa arch, southwestern Wyoming
Thomas P. Becker and Ranie Lynds .............................. 1643
Visualizing lateral anisotropy in modern carbonates
Sam J. Purkis and Brigitte Vlaswinkel ......................... 1665
Damage and plastic deformation of reservoir rocks: Part 1. Damage fracturing
Seth Buseti, Kryan Mish, and Ze’ev Reches .................. 1687
Damage and plastic deformation of reservoir rocks: Part 2. Propagation of a hydraulic fracture
Seth Buseti, Kryan Mish, Peter Hennings, and Ze’ev Reches 1711
Normal faults and gas migration in an active plate boundary, southern Taranaki Basin, offshore New Zealand
Bradley R. Ilg, Samuel Hemmings-Sykes, Andrew Nicol, Jan Baur, Miko Fohrmann, Rob Funnell, and Mike Milner 1733
Outcrop-constrained hydrogeological simulations of brine reflux and early dolomitization of the Permian San Andres Formation
Beatriz García-Fresca, F. Jerry Lucia, John M. Sharp Jr., and Charles Kerans .............................. 1757
