Reconstruction of three-dimensional eolian dune architecture from one-dimensional core data through adoption of analog data from outcrop

Hollie G. Romain and Nigel P. Mountney

A sequence-stratigraphic framework for the Upper Devonian Woodford Shale, Permian Basin, west Texas

Nikki T. Hemmesch, Nicholas B. Harris, Cheryl A. Mnich, and David Selby

Electrical and flow properties of highly heterogeneous carbonate rocks

Charlotte Garing, Linda Luquot, Philippe A. Pezard, and Philippe Gouze

Quantifying Cretaceous–Cenozoic exhumation in the Otway Basin, southeastern Australia, using sonic transit time data: Implications for conventional and unconventional hydrocarbon prospectivity

David R. Tassone, Simon P. Holford, Ian R. Duddy, Paul F. Green, and Richard R. Hillis

Acoustic nonlinear full-waveform inversion on an outcrop-based detailed geological and petrophysical model (Book Cliffs, Utah)

Daria Tetyukhina, Stefan M. Luthi, and Dries Gisolf

Salt structures and hydrocarbon accumulations in the Tarim Basin, northwest China

Yixin Yu, Liangjie Tang, Wenjing Yang, Taizhu Huang, Nansheng Qiu, and Weiguo Li
