

# Bulletin of the Seismological Society of America

Volume 100 • Number 5B • November 2010

## Contents

Ⓔ indicates that online material is available in the electronic edition of BSSA

### Articles

- Introduction to the Special Issue on the 2008 Wenchuan, China, Earthquake 2353  
*Y. Klinger, C. Ji, Z.-K. Shen, and W. H. Bakun*
- A Comparison of Recorded Response Spectra from the 2008 Wenchuan, China, Earthquake with Modern Ground-Motion Prediction Models 2357  
*Ming Lu, Xiao Jun Li, Xiao Wen An, and John X. Zhao*
- Comparison of Strong Ground Motion from the Wenchuan, China, Earthquake of 12 May 2008 with the Next Generation Attenuation (NGA) Ground-Motion Models 2381  
*Dong Wang, Lili Xie, N. A. Abrahamson, and Shanyou Li*
- Strong Ground-Motion Simulation of the 12 May 2008  $M_w$  7.9 Wenchuan Earthquake, Using Various Slip Models 2396  
*Louise W. Bjerrum, Mathilde B. Sørensen, and Kuvvet Atakan*
- Near-Source Strong Ground Motion Characteristics of the 2008 Wenchuan Earthquake 2425  
*Zengping Wen, Junju Xie, Mengtan Gao, Yuxian Hu, and K. T. Chau*
- Analysis of Horizontal Strong-Motion Attenuation in the Great 2008 Wenchuan Earthquake 2440  
*Xiao Jun Li, Lang Liu, Yu Shi Wang, and Tian Yu*
- Characterized Source Model for Simulating Strong Ground Motions during the 2008 Wenchuan Earthquake 2450  
*Susumu Kurahashi and Kojiro Irikura*
- Ground-Motion Simulation for the 2008 Wenchuan, China, Earthquake Using the Stochastic Finite-Fault Method 2476  
*Hadi Ghasemi, Yoshimitsu Fukushima, Kazuki Koketsu, Hiroe Miyake, Zifa Wang, and John G. Anderson*
- A Preliminary Study on the Near-Source Strong-Motion Characteristics of the Great 2008 Wenchuan Earthquake in China 2491  
*Ming Lu, Xiao Jun Li, Xiao Wen An, and John X. Zhao*
- Preliminary High-Frequency Ground-Motion Scaling in Yunnan and Southern Sichuan, China 2508  
*Yan Xu, Robert B. Herrmann, Chun-Yong Wang, and Shaoping Cai*
- Source Parameters of Regional Small-to-Moderate Earthquakes in the Yunnan–Sichuan Region of China 2518  
*Yan Xu, Robert B. Herrmann, and Keith D. Koper*

Model Ensembles for Prediction of Wenchuan Aftershock Activity <i>Christine Smyth, Jim Mori, and Changsheng Jiang</i>	2532
Coseismic Velocity Change in the Rupture Zone of the 2008 $M_w$ 7.9 Wenchuan Earthquake Observed from Ambient Seismic Noise <i>Xin Cheng, Fenglin Niu, and Baoshan Wang</i>	2539
Tracking the Rupture of the 2008 Wenchuan Earthquake by Using the Relative Back-Projection Method <i>Hao Zhang and Zengxi Ge</i>	2551
Low-Frequency 3D Wave Propagation Modeling of the 12 May 2008 $M_w$ 7.9 Wenchuan Earthquake <i>M. Chavez, E. Cabrera, R. Madariaga, H. Chen, N. Perea, D. Emerson, A. Salazar, M. Ashworth, Ch. Moulinec, X. Li, M. Wu, and G. Zhao</i>	2561
Remotely Triggered Seismicity in Continental China following the 2008 $M_w$ 7.9 Wenchuan Earthquake <i>Tao Jiang, Zhigang Peng, Weijun Wang, and Qi-Fu Chen</i>	2574 (E)
Fault-Scarp Features and Cascading-Rupture Model for the $M_w$ 7.9 Wenchuan Earthquake, Eastern Tibetan Plateau, China <i>G. Yu, X. Xu, Y. Klinger, G. Diao, G. Chen, X. Feng, C. Li, A. Zhu, R. Yuan, T. Guo, X. Sun, X. Tan, and Y. An</i>	2590 (E)
Surficial Slip and Rupture Geometry on the Beichuan Fault near Hongkou during the $M_w$ 7.9 Wenchuan Earthquake, China <i>Jing Liu-Zeng, Li Wen, Jing Sun, Zhihui Zhang, Guyue Hu, Xiucheng Xing, Lingsen Zeng, and Qiang Xu</i>	2615 (E)
Surface Rupture of the 2008 Wenchuan, China, Earthquake in the Qingping Stepmover Determined from Geomorphologic Surveying and Excavation, and Its Tectonic Implications <i>Junjie Ren, Guihua Chen, Xiwei Xu, Shimin Zhang, and Changwei Mao</i>	2651
Width Distribution of the Surface Ruptures Associated with the Wenchuan Earthquake: Implication for the Setback Zone of the Seismogenic Faults in Postquake Reconstruction <i>Qing Zhou, Xiwei Xu, Guihua Yu, Xianchen Chen, Honglin He, and Gongming Yin</i>	2660
Topographic Characteristics of Rupture Surface Associated with the 12 May 2008 Wenchuan Earthquake <i>Zhanyu Wei, Honglin He, Feng Shi, Xiang Gao, and Changpeng Xu</i>	2669
OSL and AMS <sup>14</sup> C Dating of the Penultimate Earthquake at the Leigu Trench along the Beichuan Fault, Longmen Shan, in the Northeast Margin of the Tibetan Plateau <i>Jin Feng Liu, Jie Chen, Jin Hui Yin, Yan Chou Lu, Andrew Murray, Li Chun Chen, Jessica Thompson, and Hui Li Yang</i>	2681 (E)
Ejection Landslide at Northern Terminus of Beichuan Rupture Triggered by the 2008 $M_w$ 7.9 Wenchuan Earthquake <i>Ren-Mao Yuan, Xi-Wei Xu, Gui-Hua Chen, Xi-Bin Tan, Yann Klinger, and Hui-Lin Xing</i>	2689
The Role of Late Quaternary Upper-Crustal Faults in the 12 May 2008 Wenchuan Earthquake <i>Alexander L. Densmore, Yong Li, Nicholas J. Richardson, Rongjun Zhou, Michael Ellis, and Yi Zhang</i>	2700
Structural Setting of the 2008 $M_w$ 7.9 Wenchuan, China, Earthquake <i>Judith Hubbard, John H. Shaw, and Yann Klinger</i>	2713

Coseismic Slip Distribution of the 2008 $M_w$ 7.9 Wenchuan Earthquake from Joint Inversion of GPS and InSAR Data <i>Caijun Xu, Yang Liu, Yangmao Wen, and Rongjiang Wang</i>	2736 (E)
Fault Source Modeling of the 2008 Wenchuan Earthquake Based on ALOS/PALSAR Data <i>M. Furuya, T. Kobayashi, Y. Takada, and M. Murakami</i>	2750
Frictional Properties of Sedimentary Rocks and Natural Fault Gouge from the Longmen Shan Fault Zone, Sichuan, China <i>Berend A. Verberne, Changrong He, and Christopher J. Spiers</i>	2767
The 12 May 2008 $M_w$ 7.9 Wenchuan, China, Earthquake: Macroseismic Intensity Assessment Using the EMS-98 and ESI 2007 Scales and Their Correlation with the Geological Structure <i>Efthymis L. Lekkas</i>	2791
Evidence that the 2008 $M_w$ 7.9 Wenchuan Earthquake Could Not Have Been Induced by the Zipingpu Reservoir <i>Kai Deng, Shiyong Zhou, Rui Wang, Russell Robinson, Cuiping Zhao, and Wanzheng Cheng</i>	2805
Gravity Measurements and Their Variations before the 2008 Wenchuan Earthquake <i>Yiqing Zhu, F. Benjamin Zhan, Jiangcun Zhou, Weifeng Liang, and Yunma Xu</i>	2815
Numeric Modeling of the Strain Accumulation and Release of the 2008 Wenchuan, Sichuan, China, Earthquake <i>Shoubiao Zhu and Peizhen Zhang</i>	2825
The 2008 Wenchuan Earthquake and Earthquake Prediction in China <i>Qi-Fu Chen and Kelin Wang</i>	2840
<b>Short Notes</b>	
A Large $M_w$ 6.0 Aftershock of the 2008 $M_w$ 7.9 Wenchuan Earthquake Triggered by Shear Waves Reflected from the Earth's Core <i>Cheng-Horng Lin</i>	2858
The Role Played and Opportunities Provided by IGP DMC of China National Seismic Network in Wenchuan Earthquake Disaster Relief and Researches <i>Xiu-Fen Zheng, Zhi-Xiang Yao, Jian-Hong Liang, and Jie Zheng</i>	2866
