Subscriptions to the *Bulletin of the Seismological Society of America (BSSA)*: Information regarding institutional subscriptions can be found at www.seismosoc.org/subscriptions. Eligible members of the Seismological Society of America receive online access to *BSSA*. Individuals may apply for membership or determine eligibility by visiting www.seismosoc.org.

Bulletin of the Seismological Society of America (BSSA) is the premier journal of advanced research in earthquake seismology and related disciplines. It first appeared in 1911. Each issue is composed of scientific papers on the various aspects of seismology, including investigation of specific earthquakes, theoretical and observational studies of seismic waves, inverse methods for determining the structure of the Earth or the dynamics of the earthquake source, seismometry, earthquake hazard and risk estimation, seismotectonics, and earthquake engineering. Special issues focus on important earthquakes or rapidly changing topics in seismology.

BSSA (ISSN 0037-1106) is published bimonthly in February, April, June, August, October and December by the Seismological Society of America, 400 Evelyn Avenue, Suite 201, Albany, CA 94706-1375. Periodicals postage paid at Berkeley, California and at additional mailing offices.
