

Join Us.

At SSA, we know that we need each other to advance earthquake science. The newcomers and the veterans. The authors and the reviewers. The researchers and their advocates.

Every day our members support one another in our shared mission. They volunteer their time to edit the pages of SSA's journals, mentor our students and remind the nation's policymakers why our work matters.

Seismology isn't a solo journey. It takes a community. Join us.

Member Benefits:

- Gain ongoing professional development opportunities, including virtual training, mentoring and workshops.
- Save on registration fees to scientific conferences.
- Access the *Bulletin of the Seismological Society of America (BSSA)*, *Seismological Research Letters (SRL)*.
- Enjoy reduced APC to publish in *The Seismic Record*.
- Engage and collaborate with our global community.
