

SPECIAL SECTION

Martian Seismology and the InSight Mission to Mars

Guest Editors: *Philippe Lognonné, Sharon Kedar, and Victor C. Tsai*

- Introduction to the Special Issue on Mars Seismology 2883
Philippe Lognonné, Sharon Kedar, and Victor C. Tsai
- The Site Tilt and Lander Transfer Function from the Short-Period Seismometer of InSight on Mars 2889
Alexander E. Stott, Constantinos Charalambous, Tristram J. Warren, William T. Pike, Robert Myhill, Naomi Murdoch, John B. McClean, Ashitey Trebi-Ollennu, Grace Lim, Raphael F. García, David Mimoun, Sharon Kedar, Kenneth J. Hurst, Marco Bierwirth, Philippe Lognonné, Nicholas A. Teanby, Anna Horleston, and William B. Banerdt
- Seismic High-Resolution Acquisition Electronics for the NASA InSight Mission on Mars 2909
Peter Zweifel, Davor Mance, Jan ten Pierick, Domenico Giardini, Cedric Schmelzbach, Thomas Haag, Tobias Nicollier, Savas Ceylan, Simon Stähler, Martin van Driel, David Sollberger, Fabian Euchner, John F. Clinton, Marco Bierwirth, Michel Eberhardt, Philippe Lognonné, William T. Pike, and W. Bruce Banerdt
- Resonances and Lander Modes Observed by InSight on Mars (1–9 Hz) 2924
Nikolaj L. Dahmen, Géraldine Zenhäusern, John F. Clinton, Domenico Giardini, Simon C. Stähler, Savas Ceylan, Constantinos Charalambous, Martin van Driel, Kenneth J. Hurst, Sharon Kedar, Philippe Lognonné, Naomi Murdoch, Robert Myhill, Mark P. Panning, William T. Pike, Martin Schimmel, Cédric Schmelzbach, John-Robert Scholz, Alexander E. Stott, Eleonore Stutzmann, and William B. Banerdt

ON THE COVER

Rendition of the Mars InSight lander to study the interior of the planet. The SEIS instruments under the protective dome at the front of the picture include 3-component Very Broad Band (VBB) and Short Period (SP) seismometers. The collection of papers in the special section in this issue examine the performance of these instruments and present initial analyses of data from them.

Image credit: NASA/JPL-Caltech

- Resonances of the InSight Seismometer on Mars **2951**
Kenneth Hurst, Lucile Fayon, Brigitte Knapmeyer-Endrun, Cedric Schmelzbach, Martin van Driel, Joan Ervin, Sharon Kedar, William T. Pike, Simon Calcutt, Tristram Warren, Constantino Charalambous, Alexander Stott, Marco Bierwirth, Philippe Lognonne, Sebastien de Raucourt, Taoufik Gabsi, Tanguy Nebut, Oliver Robert, Sylvain Tillier, Savas Ceylan, Maren Böse, John Clinton, Domenico Giardini, Anna Horleston, Taichi Kawamura, Amir Khan, Guenole Orhand-Mainsant, John-Robert Scholz, Simon Stähler, Jennifer Stevanovic, and William B. Banerdt
- Anatomy of Continuous Mars SEIS and Pressure Data from Unsupervised Learning **2964**
Salma Barkaoui, Philippe Lognonné, Taichi Kawamura, Éléonore Stutzmann, Léonard Seydoux, Maarten V. de Hoop, Randall Balestriero, John-Robert Scholz, Grégory Sainton, Matthieu Plasman, Savas Ceylan, John Clinton, Aymeric Spiga, Rudolf Widmer-Schnidrig, Francesco Civilini, and W. Bruce Banerdt
- Potential Pitfalls in the Analysis and Structural Interpretation of Seismic Data from the Mars *InSight* Mission **2982**
Doyeon Kim, Paul Davis, Ved Lekić, Ross Maguire, Nicolas Compaire, Martin Schimmel, Eleonore Stutzmann, Jessica C. E. Irving, Philippe Lognonné, John-Robert Scholz, John Clinton, Géraldine Zenhäusern, Nikolaj Dahmen, Sizhuang Deng, Alan Levander, Mark P. Panning, Raphaël F. Garcia, Domenico Giardini, Ken Hurst, Brigitte Knapmeyer-Endrun, Francis Nimmo, W. Tom Pike, Laurent Pou, Nicholas Schmerr, Simon C. Stähler, Benoit Tauzin, Rudolf Widmer-Schnidrig, and William B. Banerdt
- Magnitude Scales for Marsquakes Calibrated from InSight Data **3003**
Maren Böse, Simon C. Stähler, Nicholas Deichmann, Domenico Giardini, John Clinton, Philippe Lognonné, Savas Ceylan, Martin van Driel, Constantinos Charalambous, Nikolaj Dahmen, Anna Horleston, Taichi Kawamura, Amir Khan, Martin Knapmeyer, Guénolé Orhand-Mainsant, John-Robert Scholz, Fabian Euchner, and W. Bruce Banerdt

MAILING & SUBSCRIPTION INFORMATION

Subscriptions to the *Bulletin of the Seismological Society of America (BSSA)*: Information regarding institutional subscriptions can be found at www.seismosoc.org/subscriptions. Eligible members of the Seismological Society of America receive online access to *BSSA*. Individuals may apply for membership or determine eligibility by visiting www.seismosoc.org.

Bulletin of the Seismological Society of America (BSSA) is the premier journal of advanced research in earthquake seismology and related disciplines. It first appeared in 1911. Each issue is composed of scientific papers on the various aspects of seismology, including investigation of specific earthquakes, theoretical and observational studies of seismic waves, inverse methods for determining the structure of the Earth or the dynamics of the earthquake source, seismometry, earthquake hazard and risk estimation, seismotectonics, and earthquake engineering. Special issues focus on important earthquakes or rapidly changing topics in seismology.

BSSA (ISSN 0037-1106) is published bimonthly in February, April, June, August, October, and December by the Seismological Society of America, 400 Evelyn Avenue, Suite 201, Albany, CA 94706-1375. Periodicals postage paid at Berkeley, California and at additional mailing offices.

© 2021 by the Seismological Society of America. Printed in the U.S.A. by The Sheridan Press, Hanover, Pennsylvania. Postmaster: send address changes to: BSSA, 400 Evelyn Avenue, Suite 201, Albany, CA 94706-1375.

Authorization to photocopy items for internal or personal use, or for the internal or personal use of specific clients, is granted by the Seismological Society of America provided that the appropriate fee of \$3 per copy is paid directly to the Copyright Clearance Center, ISSN 0037-1106, 222 Rosewood Drive, Danvers, MA 01923, USA; +1-978-750-8400. Prior to photocopying items for educational classroom use, please contact Copyright Clearance Center at the above address. Consent for reproduction as described above does not extend to other types of copying, such as copying for general distribution, for advertising or promotional purpose, for creating new collective works, or for resale. For permission to reprint material please contact Seismological Society of America, 400 Evelyn Avenue, Suite 201, Albany, CA 94706-1375, USA. Email: info@seismosoc.org or contact Copyright Clearance Center at www.copyright.com. SSA recommends that the credit line for any reuse of material from *BSSA* read "authors, article title, journal title, volume number, page number(s), year, © Seismological Society of America."
