Effective dye removal from waste water using a novel low-cost NaOH modified fly ash
   Xiaoming Gao, Yuan Dai, Yu Zhang, Xiang Zhai, and Feng Fu 695

Ice-bentonite powder mixing method to improve the homogeneity of compacted bentonite in an initial sample preparation stage
   Yu Peng, Huyuan Zhang, Bingzhuo Yang, Xuewen Wang, Xianxian Shao, and Ping Liu 706

Characterization of natural clays from Italian deposits with focus on elemental composition and exchange estimated by EDX analysis: potential pharmaceutical and cosmetic uses
   Valentina Iannuccelli, Eleonora Maretti, Francesca Sacchetti, Marcello Romagnoli, Alessia Bellini, Eleonora Truzzi, Paola Miselli, and Eliana Leo 719

Tolerance of clay minerals by cement: Effect of side-chain density in polyethylene oxide (PEO) superplasticizer additives
   Hongbo Tan, Xin Li, Min Liu, Baoguo Ma, Benqing Gu, and Xiangguo Li 732

Interaction of magnesium cations with dioctahedral smectites under HLRW repository conditions
   S. Kaufhold, R. Dohrmann, and K. Ufer 743

Crude kaolin dissolution in the absence and presence of sodium poly(acrylic acid), sodium hexametaphosphate, and sodium silicate under different experimental conditions
   Feridun Demir 753

Application of multivariate analysis in the assessment of ceramic raw materials
   José V. Lisboa, Fernando Rocha, and Daniel P. S. de Oliveira 767

Technical Referees 788
