CONTENTS - Volume 1, No. 4

Special Issue: Geochemical exploration for gold and nickel in the Yilgarn Craton, Western Australia (Part 2) edited by C. R. M. Butt & K. M. Scott

Dispersion of gold and associated elements in the lateritic regolith, Mystery Zone, Mt Percy, Kalgoorlie, Western Australia by C. R. M. Butt

Gold mass balance in the regolith, Mystery Zone, Mt Percy, Kalgoorlie, Western Australia by N. B. Sergeev & D. J. Gray

Hydrothermal alteration and geochemical dispersion in the regolith at Panglo, Eastern Goldfields, Western Australia by K. M. Scott & R. W. Howard

Multi-element dispersion within salt-lake environments: case study of the buried Hannan South gold deposit, Western Australia by L. M. Lawrance

Weathering in the Parkinson Pit and its implications for exploration in the Mt Magnet Mining District, Western Australia by K. M. Scott

Regolith geology and geochemical exploration around the Stellar and Quasar gold deposits, Mt Magnet, Western Australia by I. D. M. Robertson, J. D. King & R. R. Anand 353

Komatiite volcanology, volcanological setting and primary geochemical properties of komatiite-associated nickel deposits by R. E. T. Hill 365

Regolith mapping for geochemical exploration in the Yilgarn Craton, Western Australia by M. A. Craig 383

Weathering, element distribution and geochemical dispersion at Mt Keith, Western Australia: implication for nickel sulphide exploration by N. W. Brand & C. R. M. Butt 391
