Genesis of glacial flutes inferred from observations at Múlajökull, Iceland
L.R.W. Ives and N.R. Iverson

Multi-event organization of deepwater sediments into bedforms: Long-lived, large-scale antidunes preserved in deepwater slopes
Logan M. West, Mauricio M. Perillo, Cornel Olariu, and Ronald J. Steel

Kimberlite magmatism induced by west-dipping subduction of the North American plate
Wenbo Zhang, Stephen T. Johnston, and Claire a. Currie

Ice cover as a control on the morphodynamics and stratigraphy of Arctic deltas
YeJin Lim, Joseph S. Levy, Timothy a. Goudge, and Wonsuck Kim

No large earthquakes in fully exposed subducted seamount
G. Bonnet, P. agard, S. angiboust, M. Fournier, and J. Omrani

Testing stable isotope paleoaltimetry with Quaternary volcanic glasses from the Ecuadorian Andes
Lily J. Jackson, Brian K. Horton, Bernardino O. Beate, Jordon Bright, and Daniel O. Breecker

A geomorphological assessment of wash-load sediment fluxes and floodplain sediment sinks along the lower Amazon River
Edward Park and Edgardo M. Latrubesse

Accommodation- versus supply-dominated systems for sediment partitioning to deep water
Jinyu Zhang, Wonsuck Kim, Cornel Olariu, and Ronald Steel

Influences of climate and life on hillslope sediment transport
Paul W. Richardson, J. Taylor Perron, and Naomi D. Schurr

Boundary condition controls on the high-sand-flux regions of Mars
Matthew Chojnacki, Maria E. Banks, Lori K. Fenton, and Anna C. Urso

Protogenetic garnet inclusions and the age of diamonds

Spot the difference: Zircon disparity tracks crustal evolution
M. Barham, C.L. Kirkland, and J. Hollis

The role of permafrost on the morphology of an MIS 3 moraine from the southern Laurentide Ice Sheet

Compacted cumulates revealed by electron backscatter diffraction analysis of plutonic lithics
E.M. Berleott, D.J. Prior, D.M. Gravley, S.J. Hampton, and B.M. Kennedy

Ice-cliff failure via retrogressive slumping
Byron R. Parizek, Knut Christianson, Richard B. Alley, Denis Voytenko, Irena Vaňková, Timothy H. Dixon, Ryan T. Walker, and David M. Holland

A supervolcano and its sidekicks: A 100 ka eruptive chronology of the Fish Canyon Tuff and associated units of the La Garita magmatic system, Colorado, USA
Leah E. Morgan, Samuel A. Johnstone, Amy K. Gilmer, Michael A. Cosca, and Ren A. Thompson

A library of early Cambrian chem stratigraphic correlations from a reproducible algorithm
Carling C. Hay, Jessica R. Creveling, Cedric J. Hagen, Adam C. Maloof, and Peter Huybers

Coseismic boiling cannot seal faults: Implications for the seismic cycle
Randolph T. Williams

Reactivation history of the North Anatolian fault zone based on calcite age-strain analyses
Perach Nuriel, John Craddock, Andrew R.C. Kylander-Clark, I. Tonguç Uysal, Volkan Karabacak, Ramazan Kadir Dinlk, Bradley R. Hacker, and Ram Weinberger

The largest delta plain in Earth’s history
Tore Grane Klausen, Björn Nyberg, and William Helland-Hansen

Marine anoxia and sedimentary mercury enrichments during the Late Cambrian SPICE event in northern Scotland
Sara B. Pruss, David S. Jones, David A. Fike, Nicholas J. Tosca, and Paul B. Wignall

Recycling of archaeal biomass as a new strategy for extreme life in Dead Sea deep sediments
Camille Thomas, Vincent Grossi, Ingrid Antheaume, and Daniel Ariztegui

Carbon cycling at the Sunda margin, Indonesia: A regional study with global implications
Brian M. House, Gray E. Bebout, and David R. Hilton

Unusual fluidal behavior of a silicic magma during fragmentation in a deep subaerial eruption, Havre volcano, southwestern Pacific Ocean
A.P. Murch, J.D.L. White, and R.J. Carey

Debris flows in southeast Australia linked to drought, wildfire, and the El Niño–Southern Oscillation
Petter Nyman, Ian D. Rutherford, Patrick N.J. Lane, and Gary J. Sheridan

RESEARCH FOCUS: Hillslope sediment transport across climates and vegetative influences
Christian D. Guzman
GEOLOGY publishes timely, innovative, and provocative articles relevant to its international audience, representing research from all fields of the geosciences.

Copyright not claimed on content prepared wholly by U.S. government employees within the scope of their employment. Individual scientists are hereby granted permission, without fees or further requests to GSA, to use a single figure, a single table, and/or a brief paragraph of text in other subsequent works and to make unlimited photocopies of items in this journal for noncommercial use in classrooms to further education and science. In addition, an author has the right to use his or her article or a portion of the article in a thesis or dissertation without requesting permission from GSA, provided the bibliographic citation and the GSA copyright credit line are given on the appropriate pages. For any other form of capture, reproduction, and/or distribution of any item in this journal by any means, contact: Permissions, GSA, P.O. Box 9140, Boulder, CO 80301-9140, USA, fax +1-303-357-1073, editing@geosociety.org; reference: Geology, ISSN 0091-7613. Permission is granted to authors to post the abstracts only of their articles on their own or their organization’s Web site providing the posting includes this reference: “The full paper was published in the Geological Society of America’s Journal Geology, [include year, month, and page numbers, if known, where the article appears or will appear].”

GSA provides this and other forums for the presentation of diverse opinions and positions by scientists worldwide, regardless of their race, citizenship, gender, religion, sexual orientation, or political viewpoint. Opinions presented in this journal do not reflect official positions of the Society. GSA adheres to the American Geophysical Union’s policy on diverse opinions and positions by scientists worldwide, which states “GSA provides this and other forums for the presentation of diverse opinions and positions by scientists worldwide, regardless of their race, citizenship, gender, religion, sexual orientation, or political viewpoint.”

SUBSCRIPTIONS for 2019 calendar year. All GSA Members will receive free online access to Geology with their membership. Prices for print subscriptions: Members and Fellows: $89. Student, K–12 Teacher, and Early Career Professional Members: $45. Nonmembers and institutions: $137.5 (print + online). Details on subscription choices, formats, and pricing at www.geosociety.org/publications. For all orders, call GSA Sales & Service at +1.888.443.4472 or +1.303.357.1000, or e-mail gsaservice@geosociety.org. Claims: for nonreceipt or damaged copies, please contact GSA Sales & Service. Claims are honored for one year; please allow sufficient delivery time (up to 8 weeks) for overseas copies.
