Evidence of hierarchical organization in the planktic foraminiferal evolutionary record

R. T. Patterson, A. D. Fowler, and B. T. Huber

Use of the florescent calcite marker calcine to label foraminiferal tests

J. M. Bernhard, J. K. Blanks, C. J. Hinz, and G. T. Chiver

Preservation and color differences in Nuttallides umbonifera

M. R. Carman and L. D. Keigwin

Planktic foraminiferal and environmental changes across the Bonneterre Event (OAE2, latest Cenomanian) in its type area:

A high-resolution study from the Tethyan Reference Bottaccione Section (Gubbio, Central Italy)

R. Cocioni and V. Luciani

High-resolution estuarine sea level cycles from the late Cretaceous: Amplitude constraints using agglutinated foraminifera

N. E. Tibert and R. M. Leckie

Late Visean (Mississippian) calcareous microfossils from the Tarim Basin of Western China

P. L. Brendle

Recent Literature on Foraminifera

J. A. Jett

Acknowledgment

Contributors to the Patrons Fund have strongly supported the Cushman Foundation in its sponsorship of foraminiferal research and information exchange, including the publication of this journal. The Cushman Foundation gratefully acknowledges the following Patrons for 2004. For you or your institution to become a Patron, send a check in the amount of $1200 or more to the Cushman Foundation for Foraminiferal Research.

Acknowledgments
