CURRENT RIPPLES

Clumped-isotope constraints on cement paragenesis in septarian concretions
Sean J. Loyd, J.A.D Dickson, James R. Boles, and Aradhna K. Tripati

RESEARCH ARTICLES

Testing applicability of models of distributive fluvial systems or trunk rivers in ephemeral systems: reconstructing 3-D fluvial architecture in the Beaufort Group, South Africa
Alice R. Gulliford, Stephen S. Flint, and David M. Hodgson

PERSPECTIVES

A compositional classification for grain assemblages in fine-grained sediments and sedimentary rocks
Kitty Milliken
