CURRENT RIPPLES

Recognition of tidal-bore deposits in the rock record: towards a facies model
Christopher R. Fielding and R.M. Joeckel

PERSPECTIVES

Key future directions for research on turbidity currents and their deposits
Peter J. Talling, Joshua Allin, Dominic A. Armitage, Robert W.C. Arnott, Matthieu J.B. Cartigny, Michael A. Clare, Fabrizio Felletti, Jacob A. Covault, Stephanie Girardelos, Ernst Hansen, Philip R. Hill, Richard N. Hiscott, Andrew J. Hogg, John Hughes Clarke, Zane R. Jobe, Giuseppe Malgesini, Alessandro Mozzato, Hajime Naruse, Sam Parkinson, Frank J. Peel, David J.W. Piper, Ed Pope, George Postma, Pete Rowley, Andrea Sguazzini, Christopher J. Stevenson, Esther J. Sumner, Zoltan Sylvester, Camilla Watts, and Jingping Xu

RESEARCH ARTICLES

Sedimentology of ancient coastal wetlands: insights from a Cretaceous multifaceted depositional system
Pablo Suarez-Gonzalez, I. Emma Quijada, M. Isabel Benito, and Ramón Mas

Interpreting paleo-avulsion dynamics from multistory sand bodies
Ellen P. Chamberlin and Elizabeth A. Hajek

The modern mixed carbonate–siliciclastic Abrolhos shelf: implications for a mixed depositional model
Danielle Peron D’Agostini, Alex Cardoso Bastos, and Antonio Tadeu Dos Reis

Quantitative analysis of submarine-flow deposit shape in the Marnoso-Arenacea Formation: What is the signature of hindered settling from dense near-bed layers?
Giuseppe Malgesini, Peter J. Talling, Andrew J. Hogg, Dominic Armitage, Alex Goater, and Fabrizio Felletti

Origin of clay minerals in alluvial paleosols, Prince Creek Formation, North Slope, Alaska, U.S.A: influence of volcanic ash on pedogenesis in the Late Cretaceous Arctic
Susana Salazar Jaramillo, Paul J. McCarthy, Tom P. Trainor, Sarah J. Fowell, and Anthony R. Fiorillo

RESEARCH METHODS

Statistical estimation of the position of an apex: application to the geological record
Amanda Owen, Peter E. Jupp, Gary J. Nichols, Adrian J. Hartley, Gary S. Weissmann and Dinara Sadykova
ERRATUM

Isotopic and elemental evidence for meteoric alteration of a Pennsylvanian phylloid-algal mound, Holder Formation, New Mexico, U.S.A.

Matthew S. Wasson and Kyger C Lohmann
