RESEARCH ARTICLES

Mid-Cretaceous paleopedology and landscape reconstruction of the mid-Atlantic U.S. coastal plain
Jesse D. Thornburg, Kenneth G. Miller, James V. Browning, and James D. Wright

Detrital-zircon U-Pb paleodrainage reconstruction and geochronology of the Campanian Blackhawk–Castlegate succession, Wasatch Plateau and Book Cliffs, Utah, U.S.A.
Bridget S. Pettit, Mike Blum, Mark Pecha, Noah McLean, Nicolas C. Bartschi, and Joel E. Saylor

The geochemistry of Qatar coastal waters and its impact on carbonate sediment chemistry and early marine diagenesis
John M. Rivers, Linso Varghese, Ruqaiya Yousif, Fiona F. Whitaker, Sabrina L. Skeat, and Ismail Al-Shaikh

New perspectives on the geomorphic, sedimentologic, and stratigraphic signatures of former wave-dominated tidal inlets: Assateague Island, Maryland, U.S.A.
Christopher T. Seminack and Randolph A. McBride

Source-to-sink analysis of a transtensional rift basin from syn-rift to uplift stages
Jialin Wang, Chaodong Wu, Tianqi Zhou, Wen Zhu, Yanxi Zhou, Xi Jiang, and Disheng Yang

CURRENT RIPPLES

Dense zones of the Kharaib Formation (Lower Cretaceous), United Arab Emirates
Stephen N. Ehrenberg and Qiong Wu

TURBULENCE!

Memes, false news, and the death of empiricism
V. Paul Wright
