## TABLE OF CONTENTS

**Volume 20, No. 1  February, 2005**

### SPOTLIGHT

Five Things I’ve Learned in 25 Years of Popularizing Geology  
Rex Buchanan 1

### RESEARCH REPORTS

- Early Cambrian Food Chain: New Evidence from Fossil Aggregates in the Maotianshan Shale Biota, SW China  
  Jean Vannier and Junyuan Chen 3
- Mazuelloid: Product of Post-Mortem Phosphatization of Acanthomorphic Acritarchs  
  Barbara Kremer 27
- The Effects of Spatial Patchiness on the Stratigraphic Signal of Biotic Composition (Type Cincinnatian Series; Upper Ordovician)  
  Andrew J. Webber 37
- Carnivore Coprolites from the Upper Triassic Ischigualasto Formation, Argentina: Chemistry, Mineralogy, and Evidence for Rapid Initial Mineralization  
  Kurt T. Hollocher, Oscar A. Alcober, Carina E. Colombi, and Thomas C. Hollocher 51
- Millennial- to Centennial-Scale Interruptions of the Oceanic Anoxic Event 1b (Early Albian, mid-Cretaceous) Interred from Benthic Foraminiferal Repopulation Events  
  Oliver Friedrich, Hiroshi Nishi, Jörg Pross, Gerhard Schmiedl, and Christoph Hemleben 64
- Daily Growth Rates in Shells of Arctica islandica: Assessing Sub-seasonal Environmental Controls on a Long-lived Bivalve Mollusk  

### BOOK REVIEWS

- From Greenhouse to Icehouse: The Marine Eocene-Oligocene Transition  
  Gabriel M. Filippelli 93
- High-Resolution Approaches in Stratigraphic Paleontology  
  Steven M. Holland 96
- A Celebration of the World’s Barrier Islands  
  Laura J. Moore 97
