SPOTLIGHT ARTICLE

Late Triassic durophagy and the origin of the Mesozoic Marine Revolution
Lydia S. Tackett

RESEARCH ARTICLES

Progressive deterioration of trophic conditions in a carbonate ramp environment: the Lithothamnion Limestone, Majella Mountain (Tortonian–early Messinian, Central Apennines, Italy)
Marco Brandano, Laura Tomassetti, Raffaele Sardella, and Chiara Tinelli

Post-extinction biofacies of the first carbonate ramp of the Early Jurassic (Sinemurian) in NE Panthalassa (New York Canyon, Nevada, USA)
Kathleen A. Ritterbush, Yadira Ibarra, and Lydia S. Tackett

Stars of the aftermath: asteriacites beds from the Lower Triassic of the Carnic Alps (Werfen Formation, Sauris Di Sopra), Italy
Andrea Baucon and Carlos Neto De Carvalho

Preservation of fossil microbes and biofilm in cave pool carbonates and comparison to other microbial carbonate environments
Leslie A. Melim, Diana E. Northup, Penelope J. Boston, and Michael N. Spilde

Paleoecological succession of Norian (Late Triassic) benthic fauna in eastern Panthalassa (Luning and Gabbs Formations, West-Central Nevada)
Lydia S. Tackett and David J. Bottjer
