Editors

Dr R. COLLIER

Dr S. K. DONOVAN

Mr P. P. RAWSON

Dr N. J. SOPER

Dr M. ROMANO

Dr W. D. HOLLAND

Production Editor Dr J. R. POLLITT, Geological Society Publishing House, Bath

*Officer of the Society, serving on Council

ANNUAL SUBSCRIPTION

Ordinary Members £30.00

Student Members £12.00

Ordinary Members (over 65) £20.00

Associate Members £10.00

Typescripts should be in their final form, and should be arranged according to the layout used in the latest issue of the Proceedings.

Instruction to authors

The Proceedings of the Yorkshire Geological Society is a biannual publication that caters for original research papers on all aspects of geology. Emphasis is placed on (i) papers relating to the geology of the north of England (but including aspects of more than local interest) and (ii) papers of general geological interest. Papers should be between 3000 and 15 000 words in length, including references (a full printed page consists of c. 1000 words). Longer contributions should not be submitted without prior consultation with the Editors. Review papers are normally published by invitation only, but ideas for a review paper may be submitted to the Editors for assessment by the Publications Committee.

1. SUBMISSION OF PAPERS

Papers are welcome from Society members and non-members alike. They are accepted on the understanding that they have not previously been published elsewhere and authors are asked to assign copyright to the Yorkshire Geological Society. Papers should be typed and addressed to the General Secretary. The paper must be at least 3000 words in length (and 15 000 words in total), and in the final printed form should be double spaced. Papers must be submitted as a single pdf file (please check that while reduced to final publication size it will be readable). The paper should be submitted using the system described in section 2.1 of this document.

2. PREPARATION OF PAPERS

2.1 Typescripts

Typescripts should be typed double-spaced throughout (including references and figure captions), with a maximum of four figures per page. Manuscript pages should be numbered consecutively and, in the space between, the page number should be typed at the top of the page.

2.2 Headings

Four grades of headings are normally used in the Proceedings:

1. FIRST-ORDER HEADING

1.1 Second-order heading. Text follows on next line.

1.1.1 Third-order heading. Text follows on next line.

1.1.2 Fourth-order heading. Text follows on next line.

In certain circumstances (e.g. where there are frequent short sections of text) an additional level of heading is required. The insertions should not be numbered.

2. 5th OFFPRINTS

25 free offprints per paper are provided. Additional copies may be purchased and should be ordered at page proof stage.

Acknowledgement

Some figures published in the Proceedings display the National Grid, taken from the Ordnance Survey map with the permission of Her Majesty's Stationary Office.
