CONTENTS - Volume 39, Part 3, August 2006

Mechanisms of slope failure in Valles Marineris, Mars
D. P. Neuffer & R. A. Schultz

First time landslide in Keuper mudstones in Avilés, Asturias, Spain
R. C. Pugh & F. Puell

Deformation effects in rock massifs and their long-term monitoring
B. Košťák

Sabellariids: a hidden danger or an aid to subsea pipelines?
C. J. R. Braithwaite, R. J. Robinson & G. Jones

An evaluation of the chemical attenuation capacity of UK mineral liner and geological barrier materials for landfill leachate
C. A. Fannin

A review of mecoprop attenuation in the subsurface

The application of 3D geological modelling to aquifer recharge assessments in an urban environment
M. R. Lelliott, D. McC. Bridge, H. Kessler, S. J. Price & K. J. Seymour

Hydrogeological potential of the deep Ecca aquifer of the Kalahari, southwestern Botswana
C. S. Cheney, H. K. Rutter (née Jones), J. Farr & P. Phoefusetsi

Erasmus Darwin (1731–1802) and the principle of the overflowing well
J. D. Mather
