What is the Lyell Collection?

Launched in 2007 the Lyell Collection is an online collection comprising the Society’s journal titles, Special Publications and key book series. Cutting-edge science sits alongside important historical material, all captured and presented to the highest electronic standards and benefiting from the extensive functionality of HighWire Press’ H20 platform.

With 240,000 peer-reviewed pages, 25,000 articles and 1,000 volumes, the Lyell Collection is an invaluable tool for the researcher and student alike.

• Full text in HTML and PDF format
• Actively linking to cited references
• Free public access to alerts, search functions and abstracts
• Selected open access articles
• Hosted by HighWire Press

The Geological Society

The Geological Society of London was founded in 1807 and is the UK national society for geosciences, with over 10,000 members. It is a global leader in Earth science publishing, dedicated to providing a high-quality service throughout the world.

New developments for 2012

The Society is collaborating with Elsevier to launch a full-text, full-image, full-refereed Lyell Collection module on Geofacets. Selected titles will be available on Geofacets’ searchable database of georeferenced geological maps which enables geoscientists working in the early stages of upstream exploration to assess a region’s or basin’s geological characteristics.

Special developments:

• Intuitive search features designed for geoscientists
• Map overlays
• Access to thousands of georeferenced maps
• Links to associated articles
• For further information please contact sales@geolsoc.org.uk

Special Publication archives

Online archives of the first 300 volumes of the Geological Society’s Special Publications are now available for sale on a one-off, perpetual access basis. Prices include a 10% discount for those purchasing the full archive (volumes 1–300).

New titles

Two new archival titles will be launched and made available to Lyell Collection Complete subscribers at no additional charge.

• Transactions of the Edinburgh society
• Transactions of the Glasgow geological society

Lyell Collection for libraries 2012: content and prices

To order the Lyell Collection or individual journal titles, or request further information or a free trial, please contact:

*VAT rate as applicable at the time of invoicing – please see website for current VAT rates for UK and EU subscribers. **The archives will be hosted on the Lyell Collection, and are not available for local hosting. There will be no ongoing maintenance or access charge. Prices are for single sites only. Please apply for multi-site and consortial pricing.

The Quarterly Journal of Engineering Geology and Hydrogeology is published by the Geological Society and is an established journal with subscriber numbers of over 4000 worldwide. Papers are invited from, and about, all areas of the world on engineering geology and hydrogeology topics including all relevant aspects of the approach of geology to civil engineering, mining practice and water resources. This includes but is not limited to: applied geophysics, engineering geomorphology, environmental geology, hydrogeology, groundwater quality, contaminated land, waste management, land use planning, geotechnics, rock mechanics, soil mechanics, geomaterials and geological hazards. The journal includes the prestigious Glossop and Ineson lectures, research papers, case histories, review articles, technical notes, photographic features, discussions, book reviews and periodic reports.

The Geological Society of London was founded in 1807, and is the oldest geological society in the world. It received its Royal Charter in 1825 and is now Britain’s national society for geology. Both a learned society and a professional body, the Geological Society is recognized by the Department of Trade and Industry (DTI) as the chartering authority for geoscience, able to award Chartered Geologist status upon appropriately qualified Fellows. Fellows of the Geological Society are entitled to a free subscription to the Quarterly Journal of Engineering Geology and Hydrogeology. Further information: email: membership@geolsoc.org.uk; http://www.geolsoc.org.uk; tel: +44 (0) 207 434 9944. The Society is a Registered Charity, no. 210161.
