CHALLENGING ISSUES OF THE EARTH’S HISTORY AND THE CENTRAL ASIAN AND CIRCUM-PACIFIC TECTONICS, GEODYNAMICS, AND METALLOGENY
(on the 85th birthday of Academician Nikolai Leontievich Dobretsov)

PREFACE

Shatsky V.S., Metelkin D.V. Challenging issues of the Earth’s history and the Central Asian and Circum-Pacific tectonics, geodynamics, and metallogeny (on the 85th birthday of Academician N.L. Dobretsov) ............................................................................................................. 1

THEORY OF THE EARTH’S EVOLUTION

Dobretsov N.L., Metelkin D.V., Vasilevskiy A.N. Typical characteristics of the Earth’s magnetic and gravity fields related to global and regional tectonics .................................................................................. 6

Yarmolyuk V.V., Kuz’min M.I., Donskaya T.V., Gladkochub D.P., Kotov A.B. Time between 3 and 2 Ga: transitional events in the Earth’s history .......................................................................................... 25

TECTONICS AND GEODYNAMICS

Dobretsov N.L., Buslov M.M., Vasilevskiy A.N., Zhmodik S.M., Kotlyarov A.V. First results and prospects of a new approach to study of active geologic processes by space and ground instrumental measurements (by the example of Kamchatka and the Central Asian Orogenic Belt) .................................................................................................................. 44

Egorushkin I.I., Koulaev I.Yu., Shapiro N.M., Gordeev E.I., Yakovlev A.V., Abkadyrov I.F. Structure of the upper crust beneath the Klyuchevskoy group of volcanoes revealed from ambient noise tomography .................................................................................. 68

Simonov V.A., Dobretsov N.L., Kotlyarov A.V., Karmanov N.S., Borovikov A.A. Features crystallization at different stages of magmatism evolution of the Gorely Volcano (Kamchatka): data on melt and fluid inclusions ................................................................................ 83

TECTONICS AND METALLOGENY

Gordienko I.V., Dobretsov N.L., Zhmodik S.M., Roshchektaev P.A. Multistage thrust and nappe tectonics in the southeastern part of East Sayan and its role in the formation of gold deposits .................................................................................................................... 109

Borisenko A.S., Gas’kov I.V., Babich V.V., Borovikov A.A. Gold and porphyry Cu–Mo mineralization of the Bumbat ore cluster and its relationship with the early Paleozoic magmatism of the Lake Zone (Western Mongolia) .................................................................................. 121

Sorokin A.A., Kdashnikova A.Yu., Ponomarchuk A.V., Travin A.V., Ponomarchuk V.A. Age and genesis of the Pokrovskoe gold–silver deposit (Russian Far East) ......................................................................................... 134

PERSONALIA

In memory of Academician Nikolai Leontievich Dobretsov ................................................................ 144
