The Scottish Journal of Geology continues the Transactions of the Edinburgh Geological Society and the Transactions of the Geological Society of Glasgow, and is sponsored by the councils of the two societies. It contains two parts per volume. The Journal is sent to members of both societies. Details of membership may be obtained from the secretaries, whose names appear below.

Contributions or legacies to assist towards the cost of publication of the Journal would be welcomed by the Editorial Board.

FRONT COVER ILLUSTRATION

The cover photograph is of Pettico Wick, St Abb’s, Berwickshire, looking westwards to cliffs formed by wacke sandstones and siltstones of the Llandovery series. These Lower Palaeozoic strata are folded by repeated broad eastnortheast-trending flexures. (British Geological Survey © NERC. All rights reserved. IPR/76–18C.)
The *Scottish Journal of Geology* is a Journal continuing and amalgamating the *Transactions of the Edinburgh Geological Society* and the *Transactions of the Geological Society of Glasgow*, and is sponsored by the Councils of the two societies.
CONTENTS

Volume XXXII Part 1 (Published 15 May 2006)

SCOTCHMAN, I. C., CARR, A. D. & PARNELL, J.
Hydrocarbon generation modelling in a multiple rifted and volcanic basin: a case study in the Foinaven Sub-basin, Faroe–Shetland Basin, UK Atlantic margin ................................................. 1

WOOLNOUGH, L. & OVERNELL, J.
Paleocene fossil wood from beneath An Sgurr, Isle of Eigg ............ 21

BLUCK, B. J., DEMPSTER, T. J., AFTALION, M., HAUGHTON, P. D. W. & ROGERS, G.
Geochronology of granitoid boulder from the Corsewall Formation (Southern Uplands); implications for the evolution of southern Scotland . 29

FAITHFULL, J. W. & UPTON, B. G. J.
Xenolithic insights into the deep geology beneath the Ross of Mull ...... 37

PICKETT, E. A., HYSLOP, E. K. & PETTERSON, M. G.
The Green Beds of the SW Highlands: deposition and origin of a basic igneous-rich sedimentary sequence in the Dalradian Supergroup of Scotland ......................................................... 43

PANNELL, C. L., CLARKSON, E. N. K. & ZALASIEWICZ, J.
Fine-scale biostratigraphy within the Stimulograptus sedgwickii Zone (Silurian: Llandovery) at Dob’s Linn, Southern Uplands ............ 59

STONE, P., BREWARD, N., MERRIMAN, R.J. & BARNES, R.P.
The interpretation and application of regional geochemistry: lessons from the Paratetectic Caledonides ........................................ 65

GOODENOUGH, K. M., EVANS, J. A. & KRABBENDAM, M.
Constraining the maximum age of the movements in the Moine Thrust Belt: dating the Canisp Porphyry .................................. 77

SHORT COMMUNICATION
BROWN, D., BELL, B. R. & MCLEOD, G. W.
A re-interpretation of the ‘Centre 3 screens’ of Ardnamurchan, NW Scotland ......................................................... 83

BOOK REVIEWS

87
CONTENTS

Volume XXXXII Part II (Published 6 November 2006)

STOKER, M., BRADWELL, T., WILSON, C., HARPER, C., SMITH, D. & BRETT, C.
Pristine fjord landsystem revealed on the sea bed in the Summer Isles region, NW Scotland .................................................. 89

QUINN, M. F.
Lough Neagh: the site of a Cenozoic pull-apart basin ..................... 101

Structural setting and petrogenesis of the Ben Vuirich Granite Pluton of the Grampian Highlands: a pre-orogenic, rift-related intrusion ............... 113

MARTÍNEZ-MONASTERIO, E., DUCK, R. W., STEPHENS, W. E. & WALDEN, J.
Sediment provenance in the River Eden catchment, Scotland, using chemical characterization of Fe–Ti oxide minerals and magnetic measurements .................................................. 137

LESLIE, A. G., KRABBENDAM, M. & SMITH, R. A.
The Gaick Fold Complex: large-scale recumbent folds and their implications for Caledonian structural architecture in the Central Grampian Highlands .................................................. 149

SMITH, R. A., JONES, N. S., MONAGHAN, A. A. & ARKLEY, S.
Fluvial and aeolian deposition in the Siluro-Devonian Swanshaw Sandstone Formation, SW Scotland ............................................. 161

ZANIEWSKI, A., REAVY, R. J. & HARRIS, A. L.
Field relationships and emplacement of the Caledonian Ross of Mull Granite, Argyllshire .................................................................. 179
