

Become a member of **SSA** !

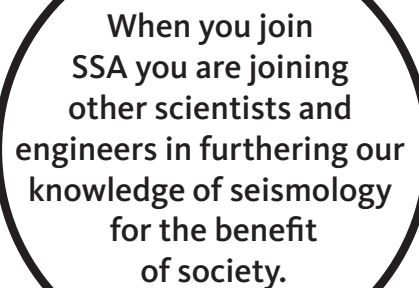

Membership includes so many great benefits:

- Full online access to *BSSA* and *SRL*, including archives dating back to the early 1900's
- Discounted registration to the Annual Meeting, the leading forum for international seismological research
- An international network of seismologists and engineers
- Access to years of presentations from previous Annual Meetings
- Eligibility for our travel grants, honors, and so much more

First organized during the aftershocks of the 1906 San Francisco earthquake, the Seismological Society of America has become the premier forum for assembling, exchanging and sharing the knowledge essential for an earthquake-aware world.

As a member, you'll have access to world-class scientific research and professional development opportunities. Your membership helps SSA communicate earthquake science to the public and provide sound science on seismic risk to government and industry officials.

By joining SSA you are becoming part of an international society that brings together basic research, applied science and public policy in one dynamic community.

When you join
SSA you are joining
other scientists and
engineers in furthering our
knowledge of seismology
for the benefit
of society.

To become a member of SSA and join other scientists and engineers in providing a strong voice for seismology, please visit <https://www.seismosoc.org/membership/>.

Seismological Research Letters

Seismological Research Letters (SRL) is published bi-monthly by the **Seismological Society of America**. *SRL* is a unique peer-reviewed journal – the first to serve as a general forum for informal communication among seismologists, as well as between seismologists and those non-specialists interested in seismology and related disciplines.

The contents of *SRL* include:

- **Contributed articles** on topics of broad seismological and earthquake engineering interest;
- **Opinion** pieces on current seismological topics;
- **News** about science, people, equipment and events all over the world; and
- **Special reports** on earthquakes and strong-motion networks.

SRL has regular columns, including:

- **Electronic Seismologist**
- **Historical Seismologist**
- **Data Mine**
- **EduQuakes**

Special sections in *SRL* include:

- **Focus sections** that contain a collection of articles on a specific topic;
- Articles from the **Eastern Section of SSA** that focus on eastern North American seismology and interpolate seismology;
- **Abstracts** of papers to be presented at the **SSA Annual Meeting**; and
- **Annual Meeting** Reports.

SRL is available in print and online. Issues back to 1929 are available online.

For current rates, shipping options, discounts and payment options, go to:

PERMISSION TO REPRODUCE MATERIAL FROM *SRL*

The Seismological Society of America (SSA) no longer requires that permission be obtained from SSA or the author(s) for the use of tables, figures, or short extracts of papers published in SSA journals, provided that the source be appropriately and accurately cited. The author's permission must be obtained for modifying the material in any way beyond simple redrawing, however.

SSA recommends that the credit line read "authors, article title, journal title, volume number, page number(s), year, © Seismological Society of America."

SSA does require that the article be published by SSA before any material may be reproduced therefrom.

BACK ISSUES AVAILABLE

Back issues of volumes 66 to date of *SRL* are still available. Limited quantities of issues of volumes before 66 are also available. Issues from volumes 66 to 72 are \$10 each, except for 68:1 (\$25 each) and 68:4 (\$20 each). Issues from volumes 73 and 74 are \$15 each, except for 73:5 and 74:5, which are \$25 each. Issues from volume 75 forward are \$20 each. Available issues from volumes before 66 are \$15 each, except for issue 58:4, which is \$25. Orders should be sent to the Seismological Society of America, 400 Evelyn Avenue, Suite 201, Albany, California 94706. For more information, visit <http://www.seismosoc.org/publications/orders/srl-back-issue.php>.

RECOMMENDATION FOR MEMBERSHIP

SEISMOLOGICAL SOCIETY OF AMERICA

I suggest the following for membership in the Society.

Name (please print or type) _____

Address _____

Name _____

Address _____

You (may) (may not) use my name in your invitation.

Signed _____

Please print name _____

Address _____

Return this form to:
