

898..... **Interpreter's Corner**—Interactive interpretation of 4D prestack inversion data using rock physics templates, dual classification, and real-time visualization, C. Andersen, V. Grosfeld, A. Haaland, and A.-J. Van Wijngaarden

908..... **Seismos**—C. Liner

914..... **Round Table**—An Occam's razor view of the lead-lag dispute in global warming, T. Ulrych and A. Woodbury

918..... *New role for geophysics in reserves estimation, D. Clark*

922..... *SEG's 2008 membership compensation survey, D. Clark*

926..... **Memoir**—On the shoulders of giants, D. Russell

980..... **State of the net**—Social networking, S. Tyler

981..... **SEG China**—A new Silk Road for technological exchange, J. Gibson

983..... **GAC Spotlight**—The 5th Congress of the Balkan Geophysical Society, S. Komatina-Petrovic

984..... *Gathering genius in Reno: The 2009 ISEF, R. Nolen-Hoeksema*

987..... **GEOPHYSICS Bright Spots**—C. Liner

988..... *DGS Annual Meeting and Awards Ceremony*

992..... **The Back Page**—SEG policies regarding OFAC sanctioned countries, D. Clark

Special section: Geophysics of the northern frontiers

931..... *Introduction to this special section: Geophysics of the northern frontiers, J. Deere*

932..... *The R/H Sabvabaa—A research hovercraft for marine geophysical work in the most inaccessible area of the Arctic Ocean, J. Hall and Y. Kristoffersen*

936..... *Seismic in Arctic environs: Meeting the challenge, R. Trupp, J. Hastings, S. Cheadle, and R. Vesely*

944..... *Focused-source EM survey versus time-domain and frequency-domain CSEM, S. Davydycheva and N. Rykhliniski*

Special section: Acquisition and processing

950..... *Wide-azimuth towed-streamer data acquisition and simultaneous sources, G. Vermeer*

960..... *How good is the weighted-sum estimate of the vibrator ground force?, Z. Wei*

966..... *High-fidelity walkaround VSP anisotropy analysis, J. Owusu, S. Mubarak, and Q. Liu*
