# Table of Contents

212...... Symposium—GSH-SEG Spring Symposium: Reservoir Geophysics and Interpretation, G. Bear and F. Hilterman

214...... Symposium preview—18th Annual 3D Seismic Symposium, M. Purcell

216...... Workshop review—Geophysical data interpretation for unconventional reservoirs, Y. Li, B. Goodway, H. Farrell, S. Nowak, and R. Masters

**Special section: Carbonate research in China**

138...... Introduction to this special section: Carbonate research in China, Y. Liu and E. Liu

140...... Origin and architecture of fractured-cavernous carbonate reservoirs and their influences on seismic amplitudes, P. Yang, S. Zandong Sun, Y. Liu, H. Li, G. Dan, and H. Jia

152...... The theory and application of DEM-Gassmann rock physics model for complex carbonate reservoirs, S. Zandong Sun, H. Wang, Z. Liu, Y. Li, X. Zhou, and Z. Wang

160...... Frequency-dependent velocity prediction theory with implication for better reservoir fluid prediction, H. Wang, S. Zandong Sun, D. Wang, J. Han, and B. Jin

168...... The application of high-resolution 3D seismic acquisition techniques for carbonate reservoir characterization in China, X. Feng, Y. Wang, X. Wang, N. Wang, G. Gao, and X. Zhu

180...... Key issues and strategies for processing complex carbonate reservoir data in China, X. Wang, X. Feng, W. Luo, X. Gao, and X. Zhu

190...... Studying heterogeneity and anisotropy via numerical and physical modeling, S. Sun, L. Chen, X. Xiao, L. Liu, Z. Tang, J. Wei, and L. Sun

198...... P-wave fracture prediction algorithm using data with limited azimuthal distribution, S. Zandong Sun, X. Xiao, L. Chen, P. Yang, H. Yang, and C. Luo

206...... Two promising approaches for amplitude-preserved resolution enhancement, S. Zandong Sun, Y. Bai, S. Wu, D. Wang, H. Gao, B. Jing, and J. Han
