# Table of Contents

**Special section: Near-surface modeling and imaging**

938  Introduction to this special section: Near-surface modeling and imaging, R. Bridle

940  Near-surface shear-wave velocity estimation based on surface-wave inversion, P. Li, K. Zhang, Y. Zhang, and Z. Yan

946  Near-surface velocity modeling using a combined inversion of surface and refracted P-waves, F. Duret, F. Bertin, K. Gardener, R. Sternfels, T. Bardainne, N. Deladerriere, and D. Le Meur

961  Image-based near-surface modeling for statics corrections, Ö. Yilmaz

968  Near-surface modeling: A multiphysics approach, M. Mantovani

986  Near-surface geophysical mapping of an Upper Cretaceous submarine volcanic vent in Austin, Texas, USA, M. Saribudak

995  Competition Review: China University of Petroleum successfully concludes 4th NEGCCS finals, Y. Liu and A. Ma

996  SEG Wiki Interview Series: Dellinger: Donate your data sets for the benefit of the science, I. Farley
