**Table of Contents**

258...... The effect of TOC on acoustic impedance for a Middle Eastern source rock, M. K. Broadhead, S. G. Cheshire, and S. Hayton

265...... Prediction of lateral variations in reservoir properties throughout an interpreted seismic horizon using an artificial neural network, D. S. Cersási, C. L. Ravazzoli, and R. G. Martínez

270......Experimental aeromagnetic survey using an unmanned air system, A. Wood, I. Cook, B. Doyle, M. Cunningham, and C. Samson

274...... Generating SEG Wiki articles to improve student geoscience content and literacy, L. Guertin

277...... Seismic inversion: What it is, and what it is not, E. Landa and S. Treitel

280...... A 2D automatic converted-wave static-correction algorithm, Y. Sun, T. Tonellot, B. Kamel, and A. Bakulin

285...... SEG Wiki Interview Series: Cova: The first SEG Wiki Student Champion, I. Farley

286......Conference Review: Third International Conference on Engineering Geophysics (ICEG), R. Miller

**Special section: Subsalt imaging**

226...... Introduction to the special section: Subsalt imaging, J. T. Etgen, D. J. Foster, and Y. Zhang

228...... Revealing subsalt structure using RTM 3D dip gathers, Y. Huang, Y. Li, C. Lee, S. Mothi, and Y. Huang

235...... Constrained waveform inversion for automatic salt flooding, E. Esser, L. Guasch, F. J. Herrmann, and M. Warner

240......Isotropic and anisotropic velocity-model building for subsalt seismic imaging, T. Matava, R. Keys, D. Foster, and D. Ashabraner

246...... Improving the greater K2 area subsalt imaging with advanced seismic acquisition, model building, and imaging technologies — A Gulf of Mexico case study, A. Albaidula, D. Walraven, and A. Rodriguez

253......Adaptive least-squares RTM with applications to subsalt imaging, C. Zeng, S. Dong, and B. Wang
