## Table of Contents

### Special section: Remote sensing

11. Introduction to this special section: Remote sensing, C. W. Beasley and W. D. Barnhart

12. Hydrocarbon microseepage-related geobotanical analysis in and around oil fields, D. Krupnik and S. Khan

24. Remote sensing techniques for onshore oil and gas exploration, B. Lord

36. Short- and long-term ground deformation due to cyclic steam stimulation in Alberta, Canada, measured with interferometric radar, S. V. Samsonov

43. 3D imaging of Mars’ polar ice caps using orbital radar data, F. J. Foss II, Nathaniel E. Putzig, B. A. Campbell, and R. J. Phillips

### Special section: Full-waveform inversion Part II

58. Introduction to this special section: Full-waveform inversion Part II, M. Tanis and J. Behura

60. Impact of high-resolution FWI in the Western Black Sea: Revealing overburden and reservoir complexity, P. Routh, R. Neelamani, R. Lu, S. Lazaratos, H. Braaksma, S. Hughes, R. Saltzer, J. Stewart, K. Naidu, H. Averill, V. Gottumukkula, P. Homonko, J. Reilly, and D. Leslie

67. Extracting geologic information directly from high-resolution full-waveform inversion velocity models — A case study from offshore Trinidad, N. Benfield, V. Rambaran, J. Dowlath, T. Sinclair, M. Evans, J. Richardson, A. Ratcliffe, and A. Irving

88. Challenges and solutions for performing 3D time-domain elastic full-waveform inversion, E. B. Raknes and B. Arnts en

94. Constraints versus penalties for edge-preserving full-waveform inversion, B. Peters and F. J. Herrmann

### Departments

6. Editorial Calendar

8. President’s Page

10. From the Other Side

103. Signals

104. Meetings Calendar

106. Membership

106. Transitions

108. Classifieds
